

## Border Measures for Arrivals from 31 March 2022, 2359 hours

	General Travel Category		Restricted Category %
	Fully vaccinated Travellers (Air/Sea)*	Non-fully vaccinated Travellers	
<b>Countries/ Regions</b>	All countries/regions		Nil
<b>Border Health Measures<sup>^</sup></b>	1. Pre-Departure Polymerase Chain Reaction (PCR) Test, professionally administered Antigen-Rapid Test (ART) or ARTs supervised by licensed Singapore providers (including remotely supervised ARTs <sup>&amp;</sup> ) within 2 days before departure for Singapore		1. Pre-Departure PCR Test within 2 days before departure for Singapore
	-	-	2. On-Arrival PCR Test
	-	3. 7-day Stay-Home Notice (SHN) at declared place of accommodation <sup>#</sup>	3. 7-day SHN at dedicated SHN facility <sup>@</sup>
	-	4. SHN exit PCR test <sup>+</sup>	

\* General Travel Category border measures for fully vaccinated land travellers will be announced separately.

% Travellers are subjected to Restricted Category border measures regardless of vaccination status if their 7-day travel history includes Restricted Category countries/ regions.

<sup>^</sup> There may be administrative, health, and vaccination requirements that are in addition or differ from the measures above. Check [SafeTravel website](#) for details.

<sup>&</sup> Refer to <https://go.gov.sg/remote-art-overseas-sg> for a list of approved remotely supervised ART PDT providers, and the travellers and countries/regions that this service applies to.

<sup>#</sup> Travellers should isolate in their room and minimise contact with any household members, especially vulnerable household members. If this is not feasible, travellers or the vulnerable household members should consider alternative accommodation.

<sup>@</sup> The charges for 7-day SHN at a dedicated SHN facility currently amount to \$1,015.

<sup>+</sup> Travellers will be notified of their test appointment closer to the date of their exit PCR test.
